

What is claimed is:

1. A retractable combination automobile sunshade and luggage carrier comprising at least one housing;
at least one sunshade means mounted in said housing;
at least one retraction means disposed supporting said housing and capable of an extended and raised position and a retracted and lowered position.
2. A retractable combination automobile sunshade and luggage carrier as claimed in Claim 1 further comprising seal means mounted on said housing.
3. A retractable combination automobile sunshade and luggage carrier as claimed in Claim 1 wherein said retraction means comprises a linkage mechanism.
4. A retractable combination automobile sunshade and luggage carrier as claimed in Claim 1 further comprising actuator means connected to said retraction means and capable of reversibly moving said retraction means from said extended position to said retracted position.
5. A retractable combination automobile sunshade and luggage carrier as claimed in Claim 1 wherein said sunshade means comprises roller means mounted in said housing and a flexible sunshade mounted on said roller means.
6. A retractable combination automobile sunshade and luggage carrier as claimed in Claim 1 further comprising four housings forming a rectangular array.
7. A retractable combination automobile sunshade and luggage carrier as claimed in Claim 1 further comprising at least one retractable door panel.

8. A retractable combination automobile sunshade and luggage carrier as claimed in Claim 3 further comprising linear actuator means disposed to operate said linkage mechanism.

9. A retractable combination automobile sunshade and luggage carrier as claimed in Claim 1 further comprising four retractable door panels capable of an open position and a closed position and forming a rectangular configuration.

10. A retractable combination automobile sunshade and luggage carrier as claimed in Fig. 6 further comprising four sunshade means mounted on each in said four housings.

11. A retractable combination automobile sunshade and luggage carrier as claimed in Fig. 10 further comprising a fifth sunshade means mounted in a selected one of said housings.
